COMFORT GRIP 10

GRIP WITH MICROTTEXTURE DESIGN

Optimal combination of ergonomic comfort and MTB performance with microtexture design for slip-less finger grip. A semi-ergonomic element offers special support for a palm. However, this element is small enough to allow the free movement of your hand when handling the bike up and down the difficult trail. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Ergonomic support for your palm
- Allows free movement of your hands

SPECIFICATIONS

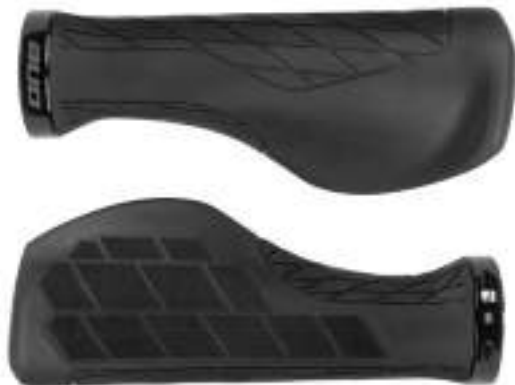

Material: Silicone / Rubber / Gel
Construction: Triple Density, Microtech Texture, One Side Ring, Aluminum
Spec. ø 22.4 mm 131.6 / 131.6 mm

PRODUCT CODE

NF160101

COMFORT GRIP 20

GRIP WITH PALM SUPPORT AND MICROTTEXTURE DESIGN

Ergonomic shape palm platform supports cyclist's hands, therefore allows the biker to ride long distances. Microtexture design ensures a slip-less finger grip. Suitable for semi and up-straight position on the bike – mainly for City and Trekking cyclists. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Ergonomic support for your palm
- Allows free movement of your hands

SPECIFICATIONS

Material: Silicone / Rubber / Gel
Construction: Triple Density, Microtech Texture, One Side Ring, Aluminum
Spec. ø 22.4 mm 136 / 136 mm

PRODUCT CODE

NF160201

COMFORT GRIP 30

GRIP WITH BAR-ENDS AND MICROTTEXTURE DESIGN

The ergonomic shape of micro-texture grips with bar-end supports cyclist's hands, therefore allows the biker to ride long distances. The rider can change the position of hands during an all-day ride.

Grips with bar-ends are mostly for Cross and Trekking/Touring riders. Bar-ends allows to push harder into the pedals during the steep climbs and squeeze the maximum out of riders' energy. Fits on all common handlebars.

BENEFITS

- Microtexture design for better grip
- Multi-ergonomic shape with plenty of support for your hands
- Allows many holding positions

SPECIFICATIONS

Material: Rubber / Gel
Construction: Double Density, Microtech Texture, One Side Ring, Aluminum
Spec. ø 22.4 mm 140 / 140 mm

PRODUCT CODE

NF160301

RACE GRIP 30

RACE GRIP WITH ANODIZED LOCK-ON

Racing grip with an ergonomic texture that can handle each advantage or challenge. Anodized fixing lock-on rings hold the grip in the right position. The double density of the material provides comfort and durability. Fits on all common handlebars.

BENEFITS

- Ergo-race texture for slipless handling in any condition – dry, wet or mud
- Durable rubber compound keeps you comfortable even on day-long riding
- Lightweight alloy lock rings keep the grip tight on the handlebar and provide an easy mount and disassemble

SPECIFICATIONS

Material: Silicone/Rubber
Construction: Double Density, One Side Ring, Aluminum
Spec. ø 22.4 mm 138.8 / 138.8 mm
